

# Installing and Using Lockdown Browser

- Tests and quizzes that require lockdown browser will be identified in the title.

- When students click on a test or quiz that requires lockdown browser inside of a regular browser, they will be prompted to take the quiz. The title and the quiz description identify the need to use the lockdown browser.

- When students click take quiz inside of a regular browser for a lockdown browser quiz, they will be given the directions seen below:

## Respondus LockDown Browser Required

This quiz requires Respondus LockDown Browser. Please launch Respondus LockDown Browser to take this quiz or view your quiz results.

If you have not already installed the browser, please download it from here: [\[Download Respondus LockDown Browser\]](#)

The directions explain to students that they need to launch the lockdown browser in order to take the quiz

## Respondus LockDown Browser Required

This quiz requires Respondus LockDown Browser. Please launch Respondus LockDown Browser to take this quiz or view your quiz results.

If you have not already installed the browser, please download it from here: [\[Download Respondus LockDown Browser\]](#)

If it is the first time a student has ever taken a quiz that uses lockdown browser, they will need to click the link to download the browser.

This is something they will need to only do one time. The one time install makes the browser available for all classes.

- After their first install, students will need to launch the lockdown browser every time they see lockdown browser in the title of a quiz or test. To launch the lockdown browser, students will need to click on the desktop icon.
